1. In accordance with the authority provided by reference, the Interoperability Test Panel (ITP) have reviewed and concurred with your request for an Interim Certificate to Operate (ICTO) with respect to the ROAC-AWACS Digital Information Link (RADIL) Software Release 8. The ITP bases the concurrence with this ICTO upon your identified urgent operational requirement to field this system.
2. The ITP Chairman concurs with recommendations of the Joint Interoperability Test Command (JITC) and the ITP members, and grants an ICTO for use of RADIL Software Release 8 while completing interoperability certification testing. This ICTO is effective beginning 15 July 2004 and expires on 30 November 2004. The ITP is issuing this ICTO as an administrative extension to the RADIL Software Release 8 dated 10 February 2004 that expired 30 July 2004. The Air Force must provide a systems status update to the ITP at the November 2004 ITP meeting to further extend this ICTO.
3. This ICTO is subject to the following conditions:
 - a. The Air Force is to work with JITC to pursue certification.
 - b. If, at the end of this ICTO, RADIL Software Release 8 has not been joint interoperability certified, The ITP will consider it a candidate for removal from operational use.
